Company Profile

Prominent Australia Pty Ltd is the leading supplier in Australia for industries that are demanding high-quality powder and e-coating corrosion protection. We gain elegance and durability in automobiles, agriculture, oil & gas, home appliances, high-temperature powder up to 650°C interior and exterior, fabrication, mining, and many more industries. Our performance parameters are focussing on 100% quality, and cost saving.

The company specialises in epoxy polyester, pure polyester, polyurethane, nylon, and heat resistance powder up to 650°C.

Our allied products adhere to international quality standards ISO 9001:2015, ISO 14001:2015, ISO 45001:2018, and IAFT 16949:2016 certified company, which gives premium coating shades and achieved the highest customer satisfaction.

- **Epoxy Powder** - Epoxy powder coating is suitable to provide optimal hardness and protective chemical resistance to your products.
- **Epoxy-Polyester** - A hybrid powder is a thermosetting powder having a mixture of epoxy and polyester resins. It forms a hard film with good resistance.
- **Pure polyester powder** - It has excellent UV resistance and is suitable for exterior coating.
- **Polyurethane powder** - Polyurethanes are most commonly found in exterior functional applications. It has excellent adhesion, chemical, and corrosion resistance.
- **Heat resistance powder** - 650°C - Heat-resistant powder coating based on silicone resin and has excellent UV resistance properties up to 650°C. Intended for use to coat mufflers, exhaust, barbecues, fire pits, etc. We are the leading supplier of high-temperature powder in Australia with premium quality and fast delivery service. We sell loose powder, starting from 2 Kg.
- **Zinc Primer** - Zinc-rich epoxy based on thermosetting powder coating designed to enhance rust resistance. It has been designed as a base coat for powder top coats.
- **TGIC Free Powders** - All prominent powders are a TGIC-free powders coating. TGIC-free powder coatings perform particularly well when a high-gloss, wet-look finish is desired.

Our Product

Our product proposition is designed to cater to the evolving needs of customers in the key segments of the powder coating industry. We offer a comprehensive product range, technical support, and service for all your custom projects.

Heat-resistant powder coating based on silicone resin and has excellent UV resistance properties. Intended for use to coat mufflers, exhaust, barbecues, fire pits, etc. We are the leading supplier of high-temperature powder in Australia with premium quality and fast delivery service.

We develop all types of custom colors for your specific needs with fast turn around. Contact us to know more information.
